

Technical Data Sheet **HD Aluminum End Cap**

Product Description / Application:

Aluminum end cap with integrated mounting plates for connection to FiFo Monorail 40 mm rails. Easy entry of floor rollers thanks to the V-shape. 4 holes for screw mounting. Integrated mounting plates for screwing into the Monorail grooves. The end cap allows the integration of FiFo Monorail connecting plates and is suitable for all roller types (rubber, polyamide, etc.). The robust material allows use in high-traffic areas.

Ideally suited for:

- Staging lanes
- Setup of station systems
- High loads

Technical Data

Material: Aluminum

Dimensions: 192.86mm(L) x 120.85mm(W) x 22.94mm(H)

Weight: 260g

Surface: powder-coated

Color: Black

Short-term temperature range: -80 °C to +150 °C

Processing Instructions:

The FiFo Monorail end cap is slid with its mounting rails into the grooves of the Monorail rails and fixed with the grub screws (3 mm hex key). If the end caps are subjected to particularly heavy loads, they can additionally be screwed to the floor. For this, we recommend using pan head or cheese head screws.

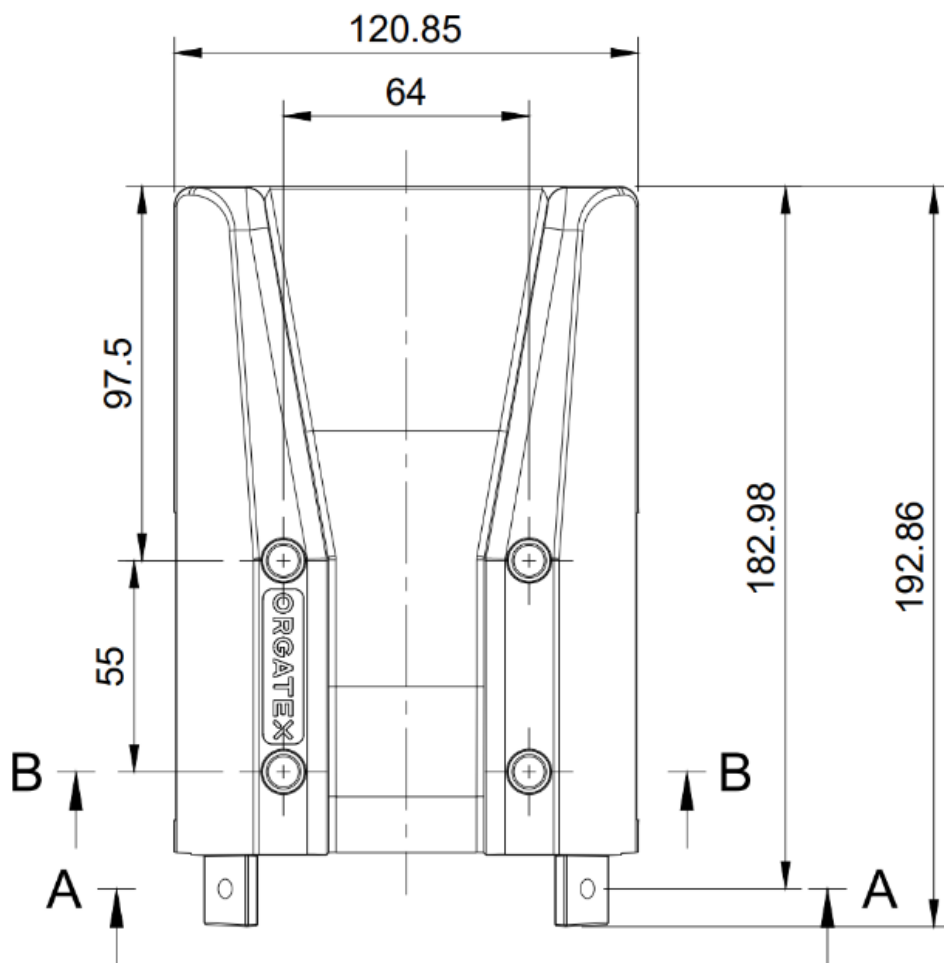

Warranty and Liability:

Our information and recommendations are based on current knowledge. The values stated in our data sheets are typical or average values. Changes and additions are possible at any time. As the use of our products is beyond our control, we accept no liability or warranty whatsoever. We will gladly provide sample material for testing purposes.
